Education Background

- Vivekanand Education Society's Institute of Technology
  Studying in third year of computer engineering aggregate CGPI-7.32

- Jai Hind College
  Higher Secondary Education | 69.5%
  (2021 – 2022)

- P.G.Garodia School
  Secondary Education | 89.6%
  (2019 – 2020)

Soft Skills

- Leadership
- Teamwork
- Communication
- Problem solving
- Decision Making

Languages

- English
- Hindi

About Me

A dedicated third-year Computer Engineering student with a strong enthusiasm for technology and innovation. Known for my quick learning ability and adaptability, I am always eager to embrace new challenges and expand my skill set. With a knack for problem-solving and a collaborative mindset, I strive to contribute effectively to team projects and drive impactful results.

Skills

- C Programming
- JAVA
- HTML
- CSS
- Javascript
- Python
- React

Projects

- **Trelder**

  Developed a user-friendly tourism website tailored for elderly individuals. Trelder offers accessible travel information, senior-friendly destination guides, and personalized recommendations to ensure a comfortable and enjoyable travel experience for the elderly.

- **AI-Assitent**

  Created an intelligent assistant using Python, capable of performing various tasks such as scheduling, information retrieval, and basic conversational interactions. Leveraged natural language processing and machine learning techniques to enhance user experience and automate routine tasks..

- **Offline RAG Model**

  Developed an offline Retrieval-Augmented Generation (RAG) model integrating LLaMA2 for efficient document-based Q&A, enabling accurate and context-aware responses without requiring internet connectivity.

- **Brain Tumor Detector using CNN**

  Designed a Brain Tumor Detector using CNN, leveraging image preprocessing and classification techniques to accurately identify brain tumors from MRI scans with high precision.
